IRIS HAS COME INTO ITS OWN AT LAST

This familiar and well-beloved flower of spring is decidedly refreshing with the purity of its beauty and its haunting fragrance; they bid fair to outlive the aristocratic Orchid in the wide range of colors, which includes yellows, blues, reds and whites. The winsome modest beauty of some of the varieties form a striking contrast to their more glorious sisters arrayed in a shear of iridescent splendor. They are perfectly hardy and require only ordinary cultivation. They succeed in various kinds of soils and conditions.

German Iris

IRIS Kaempferi—Flowers quite distinct, will compare favorably with some exotic orchids. We have a good assortment of the best varieties.

Japanese Iris

Hardy Peonies

Flavescens—Standards and Falls, a delicate shade of soft yellow; very fragrant; fine for masses.

Florentina Alba—Finest white variety, Standards and Falls; large and very fragrant.

Queen of May—Semi-early; beautiful bright rose color, slightly lilac. Robust and free flowering.

Honorabilis—Most popular of all Iris Standards; beautiful golden yellow; falls rich mahogany; very effective.

Knalls Superba—One of the large, strong, early pinks; very fragrant.

Felix Crousse—The leading red; late; fine form; fragrant; everyone should have this variety.

Edulis Superba—One of the large, strong, early pinks; very fragrant.

Herbaceous Peonies

The old-fashioned Peony official of grandmothers’ gardens, while still popular because of its early flowering, has been eclipsed by the unrelenting improved sorts of recent years. They are well adapted to massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border. They are perfectly hardy, and receive little attention.

Boule De Neige—Very large medium globular, semi-rose type. Milk white guards and yellow prominently flecked with crimson.

Dellcattissima—Like rose color; long used in the cut flower trade; very dependable; makes fine showing.

Festiva Maxima—Very large; pure white with crimson marks; loose petals; very early; should be in every garden.

Queen Victoria—Large globular, medium loose crown, cream-touched with crimson.

Herbaceous Perennials

Aquilegia (Columbine)—Old favorite spring and early summer blooming plants; white, blue and yellow.

Campanula ( Canterbury Bells) —Old time favorite; blue, rose and white.

Deiphinium (Larkspur) —Clear turquoise blue flowers; June to frost.

Digitalis ( Foxglove) —Dignified and stately white, purple and rose.

Hollyhocks—Majestic old garden plants, invaluable; white, pink, rose, maroon, and bright red.

Hemerocallis (Lemon Lily) —The hardiest and one of the most delightful of all herbaceous perennials, gracefully arching leaves and fragrant yellow flowers on long stems.

Hibiscus—Desirable border plants; enormous flowers, crimson, pink, white.

Shasta Daisy—Large snow white flowers throughout summer and fall.

Yucca Filamentosa (Adam’s Needle)—Ornamental foliage and spikes of fragrant, white, drooping flowers.

Shrubs and Trees

Althea (Rose of Sharon)—Flowers, August to October; white, blue, red, single and double flowering.

Barberry Thunbergii—Small foliage, brightly colored; valuable for hedges.

Deutzia ( Pride of Rochester) —Panicles of light rose flowers.

Forsythia (Golden Bell) —Mass of golden bell-like flowers in April; graceful.

Hydrangea, P. G.—Most popular shrub; flowers borne in dense panicles, white, changing to rose.

Maple, Norway—Very handsome tree attaining large proportions; desirable for street or lawns.

Philadelphus (Mock Orange) —White, fragrant flowers.

Privet, Amoor River—The finest evergreen hedge plant.

Syringa, Van Houtte—A fountain of white bloom.

Symphoricarpos Racemosa ( Snowberry) —Fine for mass planting.

Viburnum (Opulus Sterilib)—The popular white Snowball.

Bought Now--Enjoyed Next Spring

For grand effect as an early spring flower the tulip probably heads the list of bulbous plants. They are so entirely hardy, easily cared for, flowers so freely in city or country, sun or shade, and as with proper selection of varieties, their flowers may be enjoyed from April to June, naturally follows that they are immensely popular. A few bulbs scattered here and there produce little effect but when planted in masses or in groups, they become at once grand and brilliant, and eclipse in variety of coloring and picturesqueness almost any other flower. Plant five to six inches apart, and cover to a depth of four to six inches—the greater depth for bulbs planted with soil. For house culture plant four to six bulbs in a six-inch pot, and in proportion for the larger sized bulb pans. Good roots and plenty of them before bringing plants to light are essential to success.

**SINGLE EARLY TULIPS**

**Belle Alliance (Vagabondo)**—Crimson scarlet, well known bedding variety, good for forcing and cutting as well. Height 10 inches.

**Crimson—Brilliant scarlet; splendid bedder and sureforcer. With very handsome flowers. Height 12 inches.**

**Duchess de Parma—Scarlet crimson, bordered deep yellow, very large and handsome flowers. Height 12 inches.**

**Keizerkroon (Grand Duke)**—Rich scarlet, deeply edged bright yellow; perhaps the best known bedding variety, also good forer. Height 14 inches.

**Princess Violette**—Pale rose, flaked white; well known and popular. Height 10 in.

**Proserpine—Rich carmine rose, large globular flower; extremely effective as bedding variety, and recommended for forcing. Height 15 inches.**

**Rose Giselle**—Pale rose, flushed white, one of the best known forcing varieties, good forer. Height 9 in.

**Wouerman—Fine glowing dark purple, large flower; splendid bedder. Height 12 inches.**

**Giant Princess—One of the most popular; perianth sulphur yellow, large, sweetly scented flower: strong grower. Height 12 inches.**

**Emperor—Trumpet yellow, primrose perianth; fine large globular flower. Height 12 inches.**

**Queen Victoria (La Reine)**—White, striped and splashed rose as flower develops; one of the best known forcing varieties; pure white when forced. Height 11 inches.

**Czar Peter—Exquisite light lavender blue; a lovely color. Height 25 inches.**

**Enchantress—Sky blue, with lighter center; one of the finest light blue sorts. Height 20 inches.**

**La Victoire—Rich, crimson, small bells but long and compact spike; probably the finest crimson variety. Height 18 inches.**

**Yellow Hammer—Golden yellow; very fine flower. Height 20 inches.**

**Goldspur**—The most popular of the golden yellow trout lilies, handsome, with deep yellow flowers; valuable for dossards and for forcing. Height 12 inches.

**PARROT OR DRAGON TULIPS**

These are among the most charming of our spring flowers, that all conditions seem to suit, although they seem to have a preference for good, deep soil and semi-shaded positions. Every vacant corner in the garden, grass, or among the trees could not be used to a better advantage than by filling with Narcissus, and every border should have a number of clumps interspersed through it. They will furnish cut flowers in abundance and readily establish themselves permanently.

**INCOMPARABLES Sir Watkin (Giant Cha perfection)**—Perianth sulphur yellow, eye, boldly deep, tinged orange; does well everywhere.

**Pericle (Phoebus’s Eye; Poet’s Narcissus)**—Flower, snow white, with beautiful cap suffused with bright orange-red fragrant.

**TULIPS**

**CROCCUS BULBS—Crocuses are the harbingers of spring, and the great variety of colors make them the most attractive when planted in masses of white, light pink and purple striped. They are easily flowered in the flower bed in winter.**

**Dutch Hyacinths**

The Hyacinth is one of the most popular of the fall bulbous plants and commands a place in every garden house. There is nothing more attractive than a planting of these lovely flowers, with their brilliant colors, ranging through nearly every shade of red, yellow, orange, and purple, and their fragrance together with their long keeping qualities and decorative appearance. They may be followed in the house as early as January and a succession of bloom may be secured until April by planting at suitable intervals. Every vacant corner in the garden, grass, or among the trees could not be used to a better advantage than by filling with Narcissus, and every border should have a number of clumps interspersed through it. They will furnish cut flowers in abundance and readily establish themselves permanently.

**Boule de Neige—Pure white, large peony-like flower; a splendid forcing variety. Height 12 inches.**

**Clivia—Creamy yellow, pure white, striped and splashed rose as flower develops; one of the best known forcing varieties; pure white when forced. Height 11 inches.**

**White Hawk (Albion)**—Pure white, large globular flowers of splendid substance; finest forcing variety, petals crinkled; splendid for either bedding or forcing. Height 12 inches.

**Yellow Prince—Golden yellow, slightly splashed red as flower develops; a splendid bedding variety and excellent forcing flower; sweet scented. Height 11 inches.**

**PARROT OR DRAGON TULIPS**

Georgian late-flowering class of tulips with immense flowers brilliant and varied colors. Petals curiously cut into fantastic points. They make very showy beds or borders.

**Choice Narcissus or Daffodils**
